

Ada Lovelace

ada@example.com, +44 1632 960 000, London, United Kingdom, <https://example.com/>

Software engineer focused on reliable developer tools and clear technical communication.

Experience

Period	Role and organization
Jan 2023 – Present	Senior Software Engineer <i>Analytical Engines Ltd</i> - Reduced deployment time by 35% through parallel build stages - Led 4 engineers in delivering a new release workflow within 3 months
Jul 2020 – Dec 2022	Software Engineer <i>Difference Engine Co</i> Improved test coverage from 72% to 91% across 6 services

Education

Period	Qualification and institution
Sep 2016 – Jun 2020	BSc Computer Science <i>University of London</i> Graduated in the top 5% of the class

Projects

Project	Period
Reproducible Release Toolkit - Built a cross-platform release pipeline used by 18 open-source projects - Reduced release preparation from 2 hours to 15 minutes	Jan 2022 – Present

Publications

Publication	Date
Reproducible Builds for Small Engineering Teams Published a practical guide to build isolation, artifact verification, and release automation	Oct 2022

Skills

Languages and tools	Rust, TypeScript, PostgreSQL, and GitHub Actions
Engineering practices	Automated testing, performance profiling, and technical writing

Board and Advisory Work

Technical Advisor, Open Computing Foundation Jan 2024 – Present Advise maintainers on release security, contributor workflows, and project governance

Professional Interests

- Dependable developer infrastructure and reproducible software delivery - Computing history, technical education, and volunteer mentoring
